Dr. Carroll P. Jones was born and raised in Atlanta, GA. He received an undergraduate degree in Biology at The University of North Carolina in Chapel Hill, where he graduated Summa Cum Laude and a member of the distinguished Phi Beta Kappa academic society. His training continued at the Medical College of Georgia, and he completed his residency in orthopaedic surgery at UNC Hospitals in Chapel Hill and twice received the “Resident of the Year” distinction. Following residency, Dr. Jones completed a one-year fellowship in foot and ankle surgery with Dr. Michael Coughlin in Boise, ID. He joined the Miller Clinic in Charlotte, NC in 2004 that subsequently evolved into OrthoCarolina, where he continues to practice today. He specializes in lower extremity trauma as well as all aspects of foot and ankle surgery. Dr. Jones is very involved with teaching residents and fellows, and lectures on a regional and national basis. He is currently the lead foot and ankle physician for the Charlotte Ballet and Hendrick Motor Sports. Dr. Jones and his wife Kendall have three young children. He enjoys family time, golf, running, mountain biking and medical mission trips abroad.

James Nunley, M.D. is the J. Leonard Goldner Professor and Chairman of the Department of Orthopaedic Surgery at Duke University Medical Center. Dr. Nunley has served as President of the American Society of Reconstructive Microsurgery, the American Orthopaedic Foot and Ankle Society, the Eastern Orthopaedic Association, the Southern Orthopaedic Association, the Orthopaedic Learning Center in Rosemont, Illinois, the North Carolina Orthopaedic Association, and the North Carolina Society for Surgery of the Hand, the Hand Forum, and the Southeastern Hand Club. Dr. Nunley has given more than 340 national and international presentations, and has authored more than 200 publications in peer-reviewed journals. Dr Nunley has authored two textbooks and sits on the editorial board of several Orthopaedic journals. Dr. Nunley has been the recipient of the prestigious American/British/Canadian Traveling Fellowship, The Goldner Award and the Mann Award. Graduating Tulane University Medical Center in New Orleans, Louisiana, with a MS/MD degree, Dr. Nunley continued on to the University of California, Los Angeles to train in general surgery. He completed his orthopaedic training at Duke Medical Center in Durham, North Carolina. Dr. Nunley’s research is related to sports injuries of the foot and ankle, arthritis of the foot and ankle, and vascularized bone grafting.

Dr. Philip Basile specializes in deformity correction and sports medicine related to foot and ankle pathology. He provides the highest level of care to his patients by combining innovative techniques with proven methods to meet an individual’s needs. As an athlete himself, Dr. Basile understands the athletic drive to return to initial consultation to the end of treatment Dr. Basile works with his patients to achieve their objectives. There’s more to Dr. Basile than expertise and compassionate care, he is also a leader in foot and ankle care activity as efficiently as possible. Dr. Basile believes that quality and performance don’t start and finish in the operating room; rather that a complete patient experience is the foundation to improving health. From the initial consultation to the end of treatment, Dr. Basile works with his patients to achieve their objectives. He completed his medical degree at the College of Podiatric Medicine & Surgery at Des Moines University, his residency at Beth Israel Deaconess Medical Center and his Fellowship in 1993 at Beth Israel Deaconess Medical Center.
Jeff Loveland, DPM, Sparta, Tennessee

Dr. Jeff Loveland was raised in Ohio and earned his undergraduate degree at the University of Central Florida. He graduated from Barry University School of Podiatric Medicine in 2004. Dr. Loveland completed a three-year surgical residency at Western Pennsylvania Hospital in Pittsburgh, Pennsylvania in 2007. He has been in practice in Sparta, Tennessee since 2007 and specializes in foot and ankle reconstruction. Dr. Loveland has published a number of articles in peer review journals and has been involved in numerous clinical trial studies. He is Immediate Past President of the Tennessee Podiatric Medical Association and has served as Scientific Chairman for the TPMA Annual Meeting for five years.
